

Information on basic-care-payments for asylum seekers

This is an information about the payment procedure and the amount of basic care benefits: paid out per person and month in the Tyrol from 2024. The amount depends on the type of residence: we differentiate between living in *organized accommodation* (I.) or living in *private accommodation* (II).

- The money are paid or transferred **by the middle of the month** (until 15th of each month).
- **Absences** will be deducted in the following month.
- After the first month, most clients receive the money non-cash by transferring it to the escrow account, therefore you receive an „**ELEG card**“ in return.
- The payment of **clothing** will be changed from monthly (12,50) to half-yearly: EUR 75 will be paid in June and December. The amount is prorated depending on the month of arrival.
- The entitlement to **school** fees for school-age children is EUR 100 per school semester (twice a year).
